

IT Department

Achievements, Progress & Future Roadmap

Presented by: Manish Kushwaha/Sr. Manager

Date: 03/12/2025

Key Highlights & Achievements

32+ Projects Successfully Delivered.

A testament to our team's capability and dedication.

₹14,00,000 in Direct Cost Savings.

Achieved through strategic vendor negotiation.

Complete IT Infrastructure Modernization.

Transformed office spaces and network across 4 floors.

12 New Automation & Development Projects.

Built to streamline operations and enhance productivity.

Total Development Cost Saving: Estimated ₹6.73 Lakh to ₹9.82 Lakh.

Saving in future-ready systems.

Completed IT Initiatives: Building a Strong Foundation

Infrastructure & Operations

- Transformed the office into a fully functional workspace from scratch.
- Designed & implemented a 4-floor network infrastructure (Wi-Fi, Servers, CCTV).
- Established 3rd-floor networking and a new server room.
- Implemented in-house hosting infrastructure for MIS, FO, and IT systems.
- Upgraded 60 computers with new RAM and SSDs for enhanced performance.

Security & Compliance

- Led the successful Insurance Self Network Platform (ISNP) audit.
- Completed Proof of Concept (POC) for Endpoint Security & DLP.
- Implemented VPN for secure remote connectivity.
- Drafted 37 foundational policies for ISO - ISMS.

Process & Team Excellence

- Revamped the IT Ticketing System with defined SLAs and an escalation matrix.
- Designed and implemented a comprehensive Vendor Management framework.
- Built a dedicated, skilled, and responsible IT team.
- Replaced 45 rented computers and 15 laptops to returned to Vendor dur to performance issues.

Spotlight Achievement: Strategic Cost Negotiation

A ₹14 Lakh Victory: Mastering Vendor Management

Structured as a story:

- **The Challenge:** An outstanding vendor rent dispute of ₹25,34,988.
- **Our Action:** Proactively engaged with the vendor, leveraging our negotiation skills and market insights.
- **The Result:** Successfully negotiated the final settlement down to ₹10,96,332.
- **Direct Savings:** ₹14,00,000

Quote at the bottom: Effective cost management is not about cutting corners, but about maximizing value.

Development & Automation Portfolio

Driving Efficiency: Our Development & Automation Projects

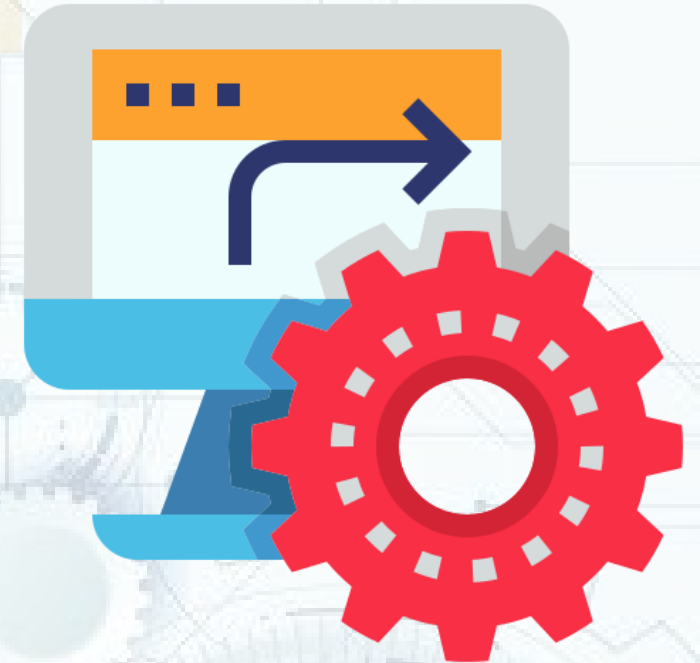

Categorized by status:

● LIVE & OPERATIONAL (10 Projects)

- CoverYou IT Support Portal
- Employee Verification Portal
- IT Asset Management System (Integrated with Onboarding/Exit)
- IT Ticketing System (Email Integrated)
- Cashback Portal (Motor Team)
- Doctor Referral Program (CRM Team)
- RevPI 10 Lakh Certificate Generation
- Vendor PO Generation & Email Automation
- Wi-Fi Captive Portal for Secure Authentication
- Developed Quote Generator for ME+CP

● READY TO GO LIVE (3 Projects)

- Automated IT Payment Process System
- CoverYou Employee Monitoring System (Desktop Agent)
- Vendor Management Process & Automation Sheet

Financial Summary:

Investment in Future-Ready Systems

Investment in Innovation: Project Cost Analysis

Content:

- A clear table summarizing the one-time development costs and annual maintenance costs for key projects.
- Below the table, highlight the totals in a distinct box:

Total Estimated Savings

Cost Type	Minimum	Maximum	Remark
One-Time Development	₹6,73,000	₹9,82,000	Saved
Annual Maintenance	₹87,000	₹1,28,000	Saved

Current Momentum: Ongoing Progress

What We are Working On Now

- **Firewall & Network Management:** Actively managing infrastructure integrated with Active Directory (AD).
Status: Progressing Well.
- **Workspace Migration:** Executing the migration from Google Workspace to Microsoft Email Server for cost optimization.
Status: Ongoing.
- **ISNP Audit Continuation:** Developing evaluation evidence and resolving compliance gaps for the ongoing audit.
Status: Ongoing.
- **Vendor Management Module:** Currently developing the module within the Asset Management System portal.
Status: Ongoing.

The Road Ahead: Future Strategic Initiatives

Vision for Tomorrow: Our Future Roadmap

Phase 1:

Strengthen Security & Compliance

1. Establish Physical and Cyber Security frameworks.
2. Full Implementation of ISO 27001.
3. Establish a dedicated IT Audit Team.

Phase 2:

Strengthen Security & Compliance

1. Upgrade outdated Networking Devices & Server Room.
2. Optimize AWS infrastructure costs.
3. Plan for an in-house Data Center establishment.

Phase 3:

Strengthen Security & Compliance

1. Establish a dedicated Procurement Team.
2. Develop an Internal Chat System (CCS_Chat).

Thank you

Our Commitment: To continue building a secure, efficient, and innovative IT ecosystem that drives business growth.

Key Takeaway: The IT department is not just a support function; we are a strategic partner in achieving organizational excellence.
